TO OUR CUSTOMERS:

All stock offered is of our own growing, and while imported stock may do well in its own locality, our home-grown stock will certainly give the best results.

Although our prices are lower than those of other reliable nurseries it must be understood that our trees are guaranteed to be first-class in every respect and second to none. Buds have been personally selected of the highest type of bearing trees, thus insuring varieties true to name. Inspection of Nursery cordially invited.

We exercise the greatest care to keep our varieties true to name, and hold ourselves in readiness at all times to replace, on proper proof, all stock that may prove otherwise, or refund the amount paid; but it is mutually agreed between the purchaser and ourselves that we shall not at any time be liable for any amount greater than the original amount paid for trees. We also disclaim any responsibility for failure arising from defective planting, or from subsequent faulty treatment or cultivation.

Terms: Cash or satisfactory references before shipment. Packing charges will be made at actual cost of material.

BASIS OF THE SIZES AND CALIPER MEASUREMENTS FOR TREES.

On all deciduous fruit trees the caliper and height combined determine the grade of the tree.

Not less than 1 inch represents 8 to 10 ft. trees

Not less than $\frac{3}{4}$ inch represents 6 to 8 ft. trees

Not less than $\frac{1}{2}$ inch represents 4 to 6 ft. trees

Not less than $\frac{3}{8}$ inch represents 3 to 4 ft. trees

Not less than $\frac{1}{4}$ inch represents 2 to 3 ft. trees

FRUIT TREE DEPARTMENT

5 trees of one variety at 10 rate, 50 trees at 100 rate, 300 trees at 1000 rate.
